Unlike hyaluronic acid fillers, Sculptra is a poly-L-lactic acid (PLLA) collagen bio stimulator that works gradually and lasts longer. Designed to treat deep wrinkles, volume loss, skin texture, and elasticity. Done 1-2 vials per session, 6 weeks apart. 4-6 vials usually needed.

Kybella

2 Vials..... \$800 Per Session
(2 Vials per session. May need up to 3 sessions.)

Now you can remove the appearance of a double chin without liposuction or surgery! Kybella, an FDA-approved injectable from the makers of Botox, is specifically formulated to permanently destroy moderate to significant fat cells. The result? A more tightened chin line and a reduction in the appearance of a double chin. Can also be done in other areas but will need to consult with a provider first as likely will take more vials.

SKINVIVE™ by JUVÉDERM®

..... \$650

is the first and only FDA-approved hyaluronic acid (HA) microdroplet injectable in the US to improve skin smoothness of the cheeks. This product increases hydration to improve skin smoothness and provide a lasting glow for up to 6 months with optimal treatment. Also, in a clinical study, patients treated with SKINVIVE™ reported higher satisfaction with how glowing, hydrated, refreshed, and healthy their skin looked*. SkinVive is unique from the other dermal fillers in the Juvéderm Collection. Traditional dermal fillers are used to replace lost volume in particular areas, fill in fine lines and wrinkles, or add definition to the face and jawline. SkinVive is administered using tiny microdroplets injected close to the surface of the skin. The microdroplets can cover larger areas and increase skin hydration and smoothness in the treatment area. Includes 2 syringes per treatment (1 syringe per cheek). Follow up in 6-month intervals. Some may need 1 month touch up.

How long does SkinVive last?

Studies have found that most patients saw a significant improvement in skin hydration and smoothness for up to six months after receiving treatment. Every person's skin is unique, so treatments last at different time periods for each person. Factors such as skincare, other treatments performed, and genetics will impact how long the treatment lasts.

SCLEROTHERAPY

Sclerotherapy is a nonsurgical, cosmetic procedure that involves injecting a solution into superficial blood vessels of the legs, causing them to close. Generally, it is a safe and effective treatment that can help with reticular veins or spider veins. The solution used is an FDA approved sclerosant, that irritates the vein walls and ultimately causes closure of the small vessels. Number of sessions is dependent on extensiveness of veins, will be discussed at consultation.

Microcurrent Dual Face Mask.....\$60
Add-On EXO CR.....\$249

Exosome technology for Youthful Skin. EXO CR is a highly active biologic product designed to complement your aesthetic treatments and enhance results.

Morpheus8 works similar to a microneedling tool, but rather than simply prick the skin, this device also incorporates radiofrequency, which triggers collagen and elastin production at a deeper level. The 24 coated pins penetrate into the subdermal tissue, coagulating the fat and contracting connective tissue to tighten and rejuvenate the treated area.

The secret lies in how the RF and microneedling combine. Microneedling creates the channels to allow the RF to penetrate the skin's deepest layers and when RF can reach those deeper layers, it's what truly contours and transforms the skin.

Benefits of Morpheus8 include:

- Increase collagen production
- Diminish fine lines and wrinkles
- Lift and tighten loose skin
- Minimize acne scarring
- Active and cystic acne, hyperhidrosis for under arms

MORPHEUS BODY

Body\$1000 Per Area
(Combine areas for discount)

After 2nd Session\$500 Per Area

Morpheus8 works similar to a microneedling tool, but rather than simply prick the skin, this device also incorporates radiofrequency, which triggers collagen and elastin production at a deeper level. The 24 coated pins penetrate into the subdermal tissue, coagulating the fat and contracting connective tissue to tighten and rejuvenate the treated area. The secret lies in how the RF and microneedling combine. Microneedling creates the channels to allow the RF to penetrate the skin’s deepest layers. When RF can reach those deeper layers, it’s what truly contours and transforms the skin.

Benefits of Morpheus8 for the body include:

- Increase collagen production
- Lift and tighten loose skin
- Fade stretch marks

***The Microcurrent Dual Face Mask** system by Franz Skincare is the most innovative sheet mask available today. Patented Tissue X™ technology in a dry mask is placed over a wet mask rich in antioxidants, vitamins and moisturizing and anti-inflammatory properties. The ion induced current delivers the skin soothing ingredients deeper into the skin to eliminate redness and promote healing. Best used after Morpheus8.

..... \$60.00

AVELI

THE AVELI DIFFERENCE

While many treatments address cellulite blindly from the outside in, Aveli is the only minimally invasive procedure that’s designed to target and release the culprit septa under the skin from the inside. Aveli can be done along with Morpheus body.

- Long-term reduction in cellulite dimples
- Minimally invasive procedure with results visible quickly
- A single in-office visit

Q: How long does Aveli procedure take?

A: A typical appointment will take around an hour-two hours including prep, local anesthesia, and procedure. Exact timing will vary depending on the personalized plan from your provider.

Q: Is there any downtime after the procedure?

A: Little to none. In the clinical study, some patients returned to normal activities within 24-48 hours, most within a week.

Q: Are there any side effects?

A: In the clinical study, the most common side effects reported were mild pain within the first 24 hours and bruising and tenderness to the touch which typically resolves within 30 days. Small areas of firmness, usually not visible or painful, typically resolve in a couple of months.

(includes microneedling with PRP)	
Add-On EXO CR.....	\$249

Exosome technology for Youthful Skin. EXO CR is a highly active biologic product designed to complement your aesthetic treatments and enhance results.

The vampire facial, also known as microneedling with PRP, is a cosmetic procedure that involves drawing blood from your arm, separating platelets and applying them back onto your face. This procedure has many benefits, including younger looking skin, and is only gaining in popularity. For the vampire facelift, the PRP is also injected into the skin along with the option of adding hyaluronic acid filler.

Benefits of a Vampire Facial

- Increased Collagen Production
- Reduced Fine Lines and Wrinkles
- Tighter, Firmer Skin
- Improved Moisture Retention
- Enhanced Skin Tone and Texture
- Added Volume

Benefits of a Vampire Hair Restoration:

- Increases blood supply to the follicle*
- Increase shaft size (thickness)*
- Triggers and maintains the growth phase*
- Controls hair growth cycle*
- Decrease hair loss*

*Individual results may vary and are not guaranteed.

COOLPEEL CO2

CoolPeel CO2 is a one-of-a-kind laser that will completely rejuvenate your skin, without the downtime of traditional CO2 lasers. It offers fully customizable skin resurfacing treatments to improve signs of aging like wrinkles, sunspots, and uneven texture, with minimal to no pain and very little if any downtime. You should expect to be a little red, as if you have a sunburn, for a day, or two, but nothing should prevent you from returning to your normal daily activities. Your skin may feel dry and scaly as it heals so it is important to keep the skin hydrated. Receive 20% off any area, PKG of 3.

Evoke is a facial skin tightening and fat burning device which safely and effectively treats the cheeks, jowls, chin, jawline, and submental area.

Evoke uses bipolar radiofrequency and artificial intelligence technology to precisely acquire, control, and extend time at therapeutic temperatures which deliver skin tightening and fat reduction on the neck and face. The temperature sensors in the Evoke face tightening system measure the skin temperature one thousand times per second in order to ensure the procedure is both safe and effective.

Benefits of Evoke

- Toned, tighter-looking skin with reduced fullness.
- Smoother skin.
- More defined facial contours.
- Youthful appearance.
- Natural-looking results.

Customizable treatments (the time needed for the treatment can be altered to optimize results)

Nitronox..... \$50

Nitronox is a delivery system that provides a gas mixture of 50% medical nitrous oxide and 50% medical oxygen. It is commonly used to help ease discomfort during some medical and aesthetic procedures such as those involving RF microneedling and lasers. Every client is different. This is why we discuss every option for every procedure we offer. We want to make sure that your experience meets only the highest standards. Accordingly, we are able to provide a service such as Nitronox which drastically reduces discomfort, and in many cases, anxiety of those receiving aesthetic treatments. Nitronox is classified as an analgesic which means it is specifically designed for pain relief. It is NOT classified as an anesthetic (a treatment meant to put you to sleep). The gas mixture is self-administered by the patient through a mouthpiece so they can inhale as needed.

Can be used along with:

- Morpheus8/Body
- Subnovii
- Tattoo Removal
- Tetra

ADVANCED AESTHETICS

OUR SKIN CARE EXPERTS HAVE A COMBINED 30 YEARS EXPERIENCE IN THIS PROFESSION. WE OFFER CLINICAL FACIALS RESULT DRIVEN FOR ANY SKIN TYPE WITH NO DOWNTIME. SPECIALIZING IN SUN DAMAGE, ACNE AND AGING SKIN.

Lip \$59

Perk Lip treatment infused with powerful ingredients and blends to exfoliate and smooth your lips to experience results like:

- Lightly plumped lips
- Hydrated lips
- Visibly smoother and exfoliated lips

CUSTOM FACIAL

Facial \$89

The custom Facial event starts with a skin conversation and evaluation to determine which products and techniques will best fit any skin concerns. Through a personalized experience from start to finish, you can count on a deep cleanse, tone, exfoliation, masking and protection. Our goal is that you leave feeling renewed with better skin.

DERMAPLANE

Facial \$55

This doubly beneficial procedure gently removes superficial dead skin cells and unwanted fine facial hair, revealing fresh and glowing skin. Includes - Double cleanse, Steam, Dermaplaning, Serum, Moisturizer, Eye Cream, SPF.

Dermaplane Facial & ZO Stimulator Peel..... \$99

The ZO® Stimulator Peel is the perfect “lunchtime” peel for people of all skin types who want a glowing, rejuvenated complexion.

ZO® Stimulator is a superficial peel, so it’s painless. Better yet, there’s no redness, irritation, or post-treatment peeling. You get immediate results with no downtime. Powered by lactic, citric, and salicylic acid and other key ingredients, the ZO® Stimulator Peel sloughs away dead skin cells and superficial blemishes to reveal clear, fresh skin underneath. This deep exfoliation leaves your skin with an amazing glow - without the pain that other chemical peels can cause. The ZO® Stimulator Peel also stimulates the growth of both collagen and elastin, elevating your overall skin health.

AUTOMATED PROFESSIONAL EXTRACTIONS

Extractions.....\$79

A facial treatment consisting of deep pore cleansing under steam, followed by skillful extraction of your skin’s impurities.

THERADERM CLARIFYING JESSNER’S PEEL

Deep Peel.....\$120

Light Peel \$99

This peel can decrease hyperpigmentation, fine lines, wrinkles and even decrease small scars. Gives a lightening and brightening effect to the skin.

RED CARPET TREATMENT

Peel.....\$150

Re-texturize skin and soothe for a more even complexion, reduces skin redness, improves skin texture and tone. Minimizes mild chronic redness photo-aging and mild hyperpigmented skin.

THE PERFECT DERMA

Peel.....\$199

The Perfect Derma™ Peel is safe, effective medium depth peel for All Skin Types & Ethnicities. This product is virtually painless, with no pre-peel skin preparation and little downtime. The Perfect Derma™ Peel is the only peel that includes the powerful anti-oxidant Glutathione, which lightens and brightens the skin, slows down the aging process and helps prevent wrinkles.

Pro Clinical Peel\$89

Pro Clinical Peel features a powerful, clinically proven blend of acids & antioxidants for a fresh, more youthful appearance. Pro Clinical Peel can be applied every 2 weeks, or as recommended by a skin care professional.

BIO REPEEL

Leave your treatment with an instant glow and watch as the results improve in the coming days. Gone are the days of hiding while your skin heals, like so many other peels. With ZERO to minimal shedding, you can go on with your daily life. BioRePeel is NOT photosensitive and can therefore be used all year round. The super moisturizing formula stimulates the skin in a biosynthetic process essential to countering effects of anti-aging and skin damage caused by UV rays and environmental pollution.

BioRePeel can be performed in a single session or used in several treatments to address the following conditions:

- Sun Damage
- Blemishes
- Hyperpigmentation
- Scarring
- Rosacea
- Large Pores
- Melasma
- General Skin Rejuvenation

Single Treatment.....\$299

CUSTOM SPRAY TAN

A custom spray tan will give you a look of a more leaner, more toned physique, brighter eyes, and whiter teeth. At Ruxer MedSpa we will customize your spray tan to your desired look. Your custom spray tan will reduce some of the appearance of any skin imperfections you feel you have, spider veins, stretchmarks and cellulite. You'll look great and feel healthier with that "California glow" in minutes.

Sjolie tanning products are infused with powerful skincare benefits to help you achieve the perfect tan while nourishing and rejuvenating your skin. We use only the highest quality, organically sourced, and naturally derived ingredients, including DHA. Our products are free from harmful chemicals such as Parabens, Erythrulose, Urea, and Mineral Oil. You can trust that our products are PETA Approved and Certified Vegan for a safe alternative to sun tanning. Additionally, Sjolie is committed to making our packaging more sustainable by utilizing recycled aluminum, plastic, glass, and paper that is sourced responsibly and will continue to seek additional ways to better the planet.

RED LIGHT THERAPY

Red light therapy is a simple, non-invasive treatment that delivers red and near-infrared light to a person's skin and cells. The device will shine red and near-infrared light on your body during a treatment session. This is just like the wavelengths of light your body needs from natural sunlight, but without the heat or UV rays that cause sun damage.

The effects from red light therapy are temporary. Generally, it takes about 7 to 10 sessions to see results, though many say they feel the benefits before that. Red light therapy is a clinically proven anti-aging treatment. It is known to restore skin cell health, Boost collagen and elastin production (which naturally decrease with age), reduce inflammation, and increase circulation, all of which could lead to radiantly healthy skin. Also can help with psoriasis, eczema, acne, rosacea, and other chronic skin disorders. More great benefits would include muscle recovery & accelerated healing, sleep quality and reduce pain.

Red Light is recommended 3-5 times per week
